How To Play KENO

twenty balls are drawn each game out of the 80 numbered balls. You may select from 1 up to 15 numbers out of the 80. Mark the numbers you wish to play with a bold X. Write the price you wish to bet on the top right hand corner of the ticket. Below the price in the right hand margin write the number of spots you have selected.

Give your Keno ticket and wager to one of our Keno Writers. The Keno Writer will register your ticket and return to you your authorized game ticket. Your authorized Keno game ticket now has the number of the game you are playing at the top right hand corner. Your ticket is good for that game only.

The amount you win is dependent on the type of ticket played, the number of spots caught and the amount of money bet.

For your convenience we have two games. Our BLUE GAME in the Main Keno Lounge and our GREEN GAME in the Coffee Shop.
