

## Review Math 131 Midterm #2 Spring 2011

For the midterm:

— you should review your homework problems (including problems assigned in class from 6.2 and 6.3) and the activities/worksheets done in class. At least one problem will be taken from those.

— you should know how to do the proofs in p.96-99 in the textbook.

— you should be able to solve the problems from previous exams provided in class.

My office hours for the midterm will be Thursday 1:30-3:00 and Monday 9:00-10:30.

The midterm will be in class Monday, April 4.
