

Samuel N. Stechmann

CONTACT INFORMATION University of Wisconsin–Madison Phone: (608) 263–4351
Department of Mathematics Fax: (608) 263–8891
480 Lincoln Dr Email: last name at wisc dot edu
Madison, WI 53706 Web: <http://www.math.wisc.edu/~stechmann/>

RESEARCH INTERESTS Applied math, computational math, pde, multiscale modeling, stochastic processes
Data science, data assimilation, inverse problems, scientific machine learning
Waves in random media, optical communications
Climate science, atmospheric science, convection and clouds, sea ice

EMPLOYMENT **University of Wisconsin–Madison, Department of Mathematics**

Professor, 2018–
Associate Professor, 2015–2018
Assistant Professor, 2010–2015
Affiliated Faculty, Dept of Atmospheric & Oceanic Sciences, 2011–
Affiliated Faculty, Center for Climatic Research, 2011–

UCLA, Department of Mathematics

NSF Mathematical Sciences Postdoctoral Research Fellowship, 2008, 2010
NOAA Climate and Global Change Postdoctoral Fellowship, 2009–2010

EDUCATION **Courant Institute, New York University**

Ph.D., Mathematics, May 2008

University of St. Thomas (Minnesota)

B.A., Mathematics, May 2003
B.S., Physics, May 2003
B.A., Chemistry, May 2003

HONORS AND AWARDS 2018 Vilas Associates Award, UW–Madison
2014 Sloan Research Fellowship
2012–2015 ONR Young Investigator Award
2012 Honored Instructor Award (2nd time), UW–Madison University Housing
2009–2010 NOAA Climate and Global Change Postdoctoral Fellowship
2008, 2010 NSF Mathematical Sciences Postdoctoral Research Fellowship
2008 Moses A. Greenfield Award for Outstanding Interdisciplinary Research,
Courant Institute of Mathematical Sciences
2003–2007 DOE Computational Science Graduate Fellowship
2003–2008 Henry MacCracken Fellowship, New York University
2003 Summa cum laude, University of St. Thomas
2002–2003 Barry M. Goldwater Scholarship
1999–2003 Science, Mathematics, and Engineering Scholarship,
University of St. Thomas

GRANTS NSF (PI) (DMS–2324368): Breaking the 1D Barrier in Radiative Transfer: Fast,
Low-Memory Numerical Methods for Enabling Inverse Problems and Machine
Learning Emulators, \$498,832 total, \$350,000 at UW (2023–2026).

- NSF (PI) (AGS-2326631): Convective Processes in the Tropics Across Scales, \$768,471 total, \$471,155 at UW (2024–2026).
- ONR MURI (co-PI) (N00014-19-1-2421): Mathematics and Data Science for Improved Physical Modeling and Prediction of Arctic Sea Ice, \$7,500,000 total, \$1,760,628 at UW–Madison (2019–2024).
- ONR (PI) (N00014-21-1-2119): Parameter Estimation for the Paraxial Wave Equation in a Turbulent Medium, \$250,000 (2020–2023).
- ONR DURIP (PI) (N00014-20-1-2495): High-Performance Computing Cluster for Modeling Cloudy Atmosphere–Ocean Dynamics and Sea Ice, \$225,003 (2020).
- NSF (co-PI) (DMS-1907667): Atmospheric Dynamics with Phase Changes and Extreme Rainfall Events, \$400,000 (2019–2022).
- NSF (co-PI) (AGS-1443325): Minimal Models for Investigating the Influence of Latent Heat Release on Midlatitude Dynamics, \$750,000 total, \$503,304 in Math Department (2015–2018).
- Sloan Research Fellowship (PI), \$50,000 (2014).
- ONR Young Investigator Award (PI) (N00014-12-1-0744): Stochastic Models and Theory-Based Data Analysis for Tropical Weather and Climate, \$487,273 (2012–2015).
- ONR DURIP (PI) (N00014-14-1-0251): High-Performance Computing Cluster for Tropical Marine Meteorological Modeling, \$230,325 (2013).
- ONR MURI (co-PI) (N00014-12-1-0912): Physics Constrained Stochastic-Statistical Models for Extended Range Environmental Prediction, \$7,586,562 total, \$793,904 at UW–Madison (2012–2017).
- NSF (PI) (DMS-1209409): Multiscale Modeling of Cloud Dynamics, \$137,468 (2012–2015).

American Physical Society, March Meeting, Invited session on Stochastic Effects in Atmospheric and Oceanic Dynamics. San Antonio, Texas. (March 2015)

American Physical Society, March Meeting, Tutorials on Climate Physics. San Antonio, Texas. (March 2015)

2014:

American Geophysical Union, Fall Meeting, Minisymposium on Organized Convection Across Scales. San Francisco, California. (December 2014)

American Geophysical Union, Fall Meeting, Minisymposium on Madden-Julian Oscillation: Observations, Modeling, and Prediction. San Francisco. (Dec. 2014)

Courant Institute, New York University. Atmosphere–Ocean Science Colloquium. (October 2014)

UW–Madison, Center for Climate Research. Climate, People, and the Environment Program. Seminar. (March 2014)

U. of North Carolina at Chapel Hill, Applied Math Colloquium. (March 2014)

National Weather Service. Central Region Headquarters, Scientific Services Division. Webinar. (January 2014)

2013:

Argonne National Laboratory. Workshop on Atmospheric Modeling at LES Scales: Opportunities and Challenges. (September 2013)

Mathematical Congress of the Americas, Guanajuato, Mexico. Special session on Mathematical Modelling in Geophysical Fluid Dynamics. (August 2013)

Institute for Mathematics and its Applications, University of Minnesota. Workshop on Stochastic Modeling of the Oceans and Atmosphere. (March 2013)

Indian Institute of Science, Bangalore. Workshop on Mathematical Perspectives on Clouds, Climate, and Tropical Meteorology. (January 2013)

Joint Math Meetings, San Diego. Special session on Environmental Mathematics: Evaluate the Past Climate Changes and Model the Future Climate Variations. (January 2013)

2012:

1st International Conference on Frontiers in Computational Physics: Modeling the Earth System. Topical session on Multiple Scales in Meteorology with Cloud Dynamics. Boulder, Colorado. (December 2012)

U. of Illinois at Urbana–Champaign, Atmos. Sci. Colloquium. (September 2012)

Max Planck Institute for Meteorology, Hamburg, Germany. Seminar. (August 2012)

AIMS 9th Conf. on Dynamical Systems, Differential Equations & Applications. Special session on Stochastic-Statistical Modeling of Climate. Orlando (July 2012)

NYU–Abu Dhabi, Center for Prototype Climate Modeling. Workshop on Climate Change in the Subtropics. (March 2012)

Mathematics and Climate Research Network. Webinar. (March 2012)

Joint Math Meetings, Boston. Special session on Climate Modeling and Geophysical Fluid Dynamics. (January 2012)

2011:

UW–Madison, Department of Atmospheric and Oceanic Sciences. Colloquium. (September 2011)

University of St. Thomas, St. Paul, Minnesota. Symposium in honor of Kurt Scholz’s retirement. (September 2011)

China Meteorological Administration, Beijing. Year of Tropical Convection (YOTC) International Science Symposium. (May 2011)

Banff Int’l Research Station, Canada. Workshop on Organized Tropical Convection and Large-Scale Circulation: Theory, Modeling, and Observations. (May 2011)

Kavli Institute for Theoretical Physics, University of California–Santa Barbara. Program on The Nature of Turbulence. (April 2011)

2010:

American Institute of Mathematics, Palo Alto, California. Workshop on Waves and Multiscale Processes in the Tropics. (December 2010)

Fudan University, Shanghai, China. International Workshop on Modern Applied Mathematics. (October 2010)

UW–Madison Joint Math/AOS Informal Seminar. (October 2010)

Oberwolfach Math Research Institute, Germany. Workshop on Mathematical Theory and Modeling in Atmosphere–Ocean Science. (August 2010)

APEC Climate Center, Busan, Korea. Workshop on Modelling Monsoon Intraseasonal Variability. (June 2010)

Jet Propulsion Lab, Pasadena, California. Science Visitor and Colloquium Program. (April 2010)

IPAM, UCLA. Workshop: Equation Hierarchies for Climate Modeling. (March 2010)

2009:

Courant Institute, New York University. Modern Perspectives in Applied Math: A Meeting in Honor of Andrew J. Majda on his 60th Birthday. (May 2009)

UC Davis, Applied Math & PDE Seminar. (May 2009)

Banff International Research Station, Canada. Workshop on Multiscale Processes in the Tropics. (April 2009)

U. of Victoria, Canada. Atmospheric Convection Group Seminar. (April 2009)

University of Colorado at Boulder. Applied Mathematics Colloquium. (March 2009)

Max Planck Institute for Meteorology, Hamburg, Germany. Seminar. (February 2009)

UCLA Applied Math/Crime Group Seminar. (February 2009)

UCLA, Dept of Atmospheric and Oceanic Sciences, Seminar. (February 2009)

2008:

University of Wisconsin–Madison, Mathematics Colloquium. (November 2008)

Pacific Inst for Math Sci. Univ of Victoria, Canada. Workshop on Stochastic and Probabilistic Methods for Atmos., Ocean, and Climate Dynamics. (July 2008)

National Center for Atmospheric Research, Boulder, Colorado. Summer School on Geophysical Turbulence. (July 2008)

SIAM Annual Meeting. Minisymposium on Tropical Convection, Waves, and Large-Scale Circulation. San Diego, California. (July 2008)

Courant Institute, New York University. Atmosphere–Ocean Science Colloquium. (April 2008)

2007:

Pacific Inst for Math Sci. University of Victoria, Canada. Summer School on Tropical Multiscale Convective Systems. (August 2007)

SIAM Conf. on Applications of Dynamical Systems, Snowbird, Utah. (May 2007)

28th General Assembly of the International Union of Geodesy and Geophysics (IUGG), Session on Data-Driven Cryospheric Sciences, and Session on Advances in Atmospheric Radiation. Berlin, Germany. (July 2023)

16th Conf. on Cloud Physics, Madison, Wisconsin. (August 2022)

Imaging and Applied Optics Congress. Vancouver, Canada. (July 2022)

18th International Conf. on Hyperbolic Problems, Malaga, Spain. (June 2022)

33rd Conf. on Hurricanes & Tropical Meteorology, Ponte Vedra Beach, Florida. (April 2018)

32nd Conf. on Hurricanes & Tropical Meteorology, Puerto Rico. (April 2016)

20th Conf. on Atmospheric & Oceanic Fluid Dynamics, Minneapolis. (June 2015)

1st World Weather Open Science Conference, Montreal, Canada. (August 2014)

31st Conf. on Hurricanes & Tropical Meteorology, San Diego, Calif. (March 2014)

66th Annual Meeting of the American Physical Society’s Division of Fluid Dynamics, Pittsburgh, Pennsylvania. (November 2013)

30th Conf. on Hurricanes and Tropical Meteorology, Ponte Vedra Beach, Florida. (April 2012)

29th Conf. on Hurricanes and Tropical Meteorology, Tucson, Arizona. (May 2010)

17th Conf. on Atmospheric & Oceanic Fluid Dynamics, Stowe, Vermont. (June 2009)

CONFERENCE
TALKS

CONFERENCE
POSTERS

- 12th International Conf. on Hyperbolic Problems, University of Maryland, College Park. (June 2008)
- 28th Conf. on Hurricanes and Tropical Meteorology, Orlando, Florida. (April 2008)
- Isaac Newton Institute for Mathematical Sciences, University of Cambridge. Programme on Frontiers in Kinetic Theory. Workshop on Frontiers in Numerical Analysis of Kinetic Equations. (May 2022)
- 102nd Annual Meeting of the American Meteorological Society, 10th Symposium on the Madden-Julian Oscillation and Sub-Seasonal Monsoon Variability. The Andy Majda Memorial Session on Tropical Convection and Waves. Virtual/Hybrid Meeting. (January 2022)
- American Geophysical Union, Fall Meeting, Minisymposium on Advances in Computational Analysis in Geophysical Processes: Applied Math Perspectives on Prediction, Uncertainty Quantification, and State Estimation. A special session to honor the memory of Andrew Majda. Virtual/Hybrid Meeting. (December 2021)
- 101st Annual Meeting of the American Meteorological Society, 9th Symposium on the Madden-Julian Oscillation and Sub-Seasonal Monsoon Variability. Virtual Meeting. (January 2021)
- 16th International Conf. on Clouds & Precipitation, Leipzig, Germany. (August 2012)
- 30th Conf. on Hurricanes and Tropical Meteorology, Ponte Vedra Beach, Florida. (April 2012)
- 13th Conf. on Cloud Physics, Portland, Oregon. (June 2010)
- 29th Conf. on Hurricanes and Tropical Meteorology, Tucson, Arizona. (May 2010)
- 16th Conf. on Atmospheric and Oceanic Fluid Dynamics, Santa Fe, New Mexico. (June 2007)
- 15th Conf. on Atmospheric and Oceanic Fluid Dynamics, Cambridge, Massachusetts. (June 2005)

SERVICE

To the Profession:

- Member, International Commission on Dynamic Meteorology (ICDM), of the International Association of Meteorology and Atmospheric Sciences (IAMAS), of the International Union of Geodesy and Geophysics (IUGG). (2023-present)
- Associate Editor for the journal ‘Mathematics of Climate and Weather Forecasting’. (2016–2020)
- Guest Editor for the journal ‘Research in the Mathematical Sciences’ for a special issue ‘Modern Applied Mathematics and Scientific Grand Challenges: Special Collection in Honor of Andrew J. Majda on the Occasion of His 70th Birthday’. (2019–2021)
- Organizer for workshops, mini-symposia, etc. (see list below)
- Reviewer for over 20 journals

To the University:

- Reviewer for the Research Forward initiative, Office of the Vice Chancellor for Research and Graduate Education (OVCRGE), UW–Madison. (2022)
- Member of the Review Committee for Sophomore Research Fellowship proposals, Undergraduate Academic Awards Office, UW–Madison. (2021)

ACTIVITIES
ORGANIZED

Member of the Research Committee for the Physical Sciences, under the Vice Chancellor for Research and Graduate Education, for review of Fall Research Competition applications. College of Letters & Science, UW–Madison. (2017–2020)

Member of the Review Committee of the Academic Program in the Department of Atmospheric and Oceanic Sciences. College of Letters & Science, UW–Madison. (2014–2015)

Oberwolfach Math Research Institute, Germany. Workshop on Model Hierarchies in Atmosphere, Ocean, and Climate Sciences. (July 2024)

International Virtual Seminar on Mathematics and Atmospheric Physics. Co-organized with Peter Spichtinger (JGU Mainz). (April 2021 to present)

Courant Institute, New York University, Memorial Conference in Honor of Andrew J. Majda. (May 2023)

American Meteorological Society, Annual Meeting, Symposium on the Madden-Julian Oscillation and Sub-Seasonal Monsoon Variability, The Andy Majda Memorial Session on Tropical Convection and Waves. Virtual/Hybrid Meeting. (January 2022)

American Geophysical Union, Fall Meeting, Minisymposium on Advances in Computational Analysis in Geophysical Processes: Applied Math Perspectives on Multi-scale and Stochastic Models. A special session to honor the memory of Andrew Majda. Virtual/Hybrid Meeting. (December 2021)

SIAM Conference on Mathematics of Planet Earth. Mini-symposium on Moisture-Driven Flows, Clouds, and Convection. Garden Grove, California. Virtual format, due to COVID-19. (August 2020)

Dynamics, Equations, and Applications: an international conference to celebrate the 100th anniversary of the founding of the AGH University of Science and Technology. Mini-symposium on Mathematics of weather, climate, and prediction. Kraków, Poland. (September 2019)

International Congress on Industrial & Applied Mathematics (ICIAM). Minisymposium on Data Assimilation, Prediction, and Uncertainty Quantification for Complex Systems. Valencia, Spain. (July 2019)

Courant Institute, NYU. Nonlinear Dynamics and Data: Prediction, State Estimation, and Uncertainty Quantification in Complex Systems. A Conference to Celebrate the 70th Birthday of Andrew Majda. (March 2019)

American Meteorological Society, Annual Meeting, Session on The Role of Water in Shaping Features of the Weather/Climate System, Conference on Climate Variability and Change. Austin, Texas. (January 2018)

AMS Fall Central Sectional Meeting. Special session on Modeling and Predicting the Atmosphere, Oceans, and Climate. Minneapolis, Minnesota. (October 2016)

International Congress on Industrial & Applied Mathematics (ICIAM). Minisymposium on Mathematics of Climate: From the Tropics to Antarctica. Beijing, China. (August 2015)

Applied and Computational Mathematics Seminar, UW–Madison. (2011–2012)

Joint Math/AOS Informal Seminar, UW–Madison. (2011–2012)

AIMS 9th Int'l Conference on Dynamical Systems, Differential Equations & Applications. Special session on Waves & Convection. Orlando, Florida. (July 2012)

International Congress on Industrial and Applied Mathematics (ICIAM). Satellite Workshop on Applied Math and Applied PDE, University of Victoria, Canada. (July 2011)

MENTORING
ACTIVITIES

Postdoctoral researchers, UW–Madison, Dept of Mathematics: Jiuhua Hu (2021–present), Antoine Remond–Tiedrez (2020–present), Shukai Du (2020–present), Quanling Deng (2020–2021), Chung-Nan Tzou (2015–2019), Alfredo Wetzel (2015–2019), Shengqian Chen (2013–2016), H. Reed Ogrosky (2013–2016), Scott Hotovy (2013–2016), Gerardo Hernandez–Duenas (2011–2014).

PhD students, UW–Madison, Dept of Mathematics: Jason Torchinsky (DOE Computational Science Graduate Fellowship, 2018–2023), Tianhong Huang (2017–2023), David Marsico (2017–2020), Ying Li (2016–2020), Tom Edwards (2015–2019).

PhD student research collaborations, UW–Madison, Dept of Mathematics: Anjali Nair (2020–2023), Parvathi Madathil Kooloth (2019–2022), Yeyu Zhang (2017–2020).

PhD students, UW–Madison, Dept of Physics: Bradley Kumm (2020–present).

PhD thesis committees, UW–Madison, Dept of Mathematics: 15 from 2012–2021.

PhD thesis committees, UW–Madison, Dept of Atmospheric and Oceanic Sciences: Cameron Bertossa (2022–present), Juliet Pilewskie (2020–present), and 12 others from 2012–2023.

PhD thesis committees, UW–Madison, Dept of Civil and Environmental Engineering: Alvaro Linares (2018), Adam Bechle (2013–2015).

PhD thesis committees, UW–Madison, Dept of Mechanical Engineering: Hongjiang Li (2017–2019), Guangfei Zhu (2016–2018), Chi-Wei Tsang (2015–2017).

PhD thesis committees, New York University, Courant Institute of Mathematical Sciences, Center for Atmosphere–Ocean Science: Noah Brenowitz (2016–2017).

Masters student research, UW–Madison: Chuanqi Zhang (2019), Yian Chen (2017–2018), Mao Hong (2017–2018), Tianhong Huang (2017), Qichen Liu (2017).

Undergraduate research, UW–Madison: Achintya Krishnan (2021–present), Melisa Erman (2023), Evelyn Tollar (2023), Marissa Zhang (2023), Mengze Li (2019–2022), Yixian Gan (2019–2020), Kangqi Fu (2019–2021), James Hu (2019–2020), Eli Mueller (2017–2018), Tristan Abbott (2014–2016).

Undergraduate research, UCLA: Applied Math REU, Stephen Lee, Russell Melick, Dmitri Skjorshammer, undergraduates from Harvey Mudd College. (2009 Summer)

Mentor for the Wisconsin Science and Computing Emerging Research Stars (WISCERS) Program. (2023)

Panel member for STEM majors and careers. PEOPLE Program: Precollege Enrichment Opportunity Program for Learning Excellence. UW–Madison, Division of Diversity, Equity, and Educational Achievement. (2020)

OUTREACH

- | | |
|-----------|---|
| 2021 | Speaker at Math Club/Engineering Club (NSBE Jr, SHPE Jr), Madison East High School. |
| 2019 | Honors Day. Speaker. Wisconsin Math Talent Search, a math contest for high school and middle school students. |
| 2018 | Why Math Matters. Speaker. Outreach event, UW Math Dept. |
| 2012–2015 | Math Week at Madison East High School. Lecturer. |
| 2006–2008 | cSplash (a math festival for high school students, held each year at the Courant Institute). Lecturer. |
